

Regulating Research in the Life Sciences in a Globalised World Project: Case Studies

Wednesday 18th July to Friday 20 July 2012

Pennington Suite, Grey College, Durham University

Final Programme

Wednesday 18 July

18.30	Dinner, Pennington Suite Drinks from 18.30, dinner at 19.00
-------	--

Thursday 19 July

Time	Presentations and breaks	Chair
9.15	Welcome and introduction	
9.30	Stem cell case study (Durham group)	Hans-Joerg Ehni
10.00	Discussion of case study	
10.30	Coffee break	
11.00	Helsinki Declaration case study (Tübingen group)	Stefan Eriksson
11.30	Discussion of case study	
12.00	Discussion of teaching collaboration: Hans-Joerg Ehni	
12.30	Lunch break	
13.30	Animal research case study presentation (UWA group)	Gareth Jones
14.00	Discussion of animal research case study	
14.30	Discussion of research misconduct case study (already presented)	
15.00	Coffee break	
15.30	Anatomical research case study (Otago group)	Dominique Blache
16.00	Discussion of case study	
16:30	Close	
18:30	Dinner, Pennington Suite Drinks from 18.30, dinner at 19.00	

Friday 20 July

Time	Presentations and breaks	Chair
9.15	Project overview: Deryck Beyleveld	Urban Wiesing
9.45	Discussion	
10.15	Coffee break	
10.45	Continuation of discussion	Holger Maehle
12.15	Lunch	
13.30	Optional tour of the Castle and Cathedral	

Case Study Summaries

- 1. Stem cell case study** (Durham-led)
The Bringing of Stem Cell Research Results to Clinical Application
- 2. Helsinki Declaration case study** (Tübingen-led)
The Declaration of Helsinki: a successful paradigm for the regulation of international biomedical research
- 3. Animal research case study** (UWA-led)
Training and education packages in Animal Ethics and Welfare required by regulation: Content, efficiency and improvement
- 4. Science journals case study** (Dartmouth-led)
Science Journals as Sites of International Ethical Regulation
- 5. Research misconduct case study** (Uppsala-led)
Research misconduct: where ethics and law intersect
This case study was presented at the Tübingen workshop, October 2011 and will therefore not be presented at the Durham workshop.
- 6. Anatomical research case study** (Otago-led)
Obtaining human bodies and body parts ethically - cross-cultural analysis
